

You're Invited

To another year of virtual PD from PALS!

2018-19

We understand it is difficult to send teachers to professional development opportunities outside of your district. During the **2018-19** school year, we will continue to offer PALS professional development, **as part of your CESA/PALS partnership purchase**, in shorter, virtual sessions and offered via live or recorded webinars. We will invite you to register and join our PALS Literacy Specialists for the live webinars or share the link with you to view the recorded version.

Your choice, your schedule!
